
Verification and control

The Laboratory ABC, for improving the transparency and avoiding possible manipulation of test reports, is available to verify and control the issued test reports and for which any discrepancy is suspected.

A copy of the test report (by fax at 049 8272750 or as e-mail attachment to biofuel.tesaf@unipd.it) can be sent, specifying the reasons for the request.

The Laboratory ABC staff will compare the copy with the original of the test report filed in the lab archive and report any discrepancy to the applicant.
